Commission	We will agree a commission rate with each distributor. All distributors should be able to demonstrate that commission received bears a reasonable relationship to the actual costs of their contribution/level of involvement or benefit added by them to the distribution arrangement. We may ask you to justify your commission rate.
Other Remuneration	We will charge an Underwriting Fee on any new business or renewal policy taken up. We will also charge a fee if your customer requests to cancel the policy during its term (other than in the cooling off period). Full details regarding our fees can be found within the quote and issue cover Schedule Statement of Fact. We review our fees annually to ensure that they remain appropriate. We may ask you provide details of remuneration you earn in connection with the sale of our policy. This includes any fees, premium finance earnings, earning from non-insurance products or add-ons sold alongside our policy. You must ensure that your arrangements are consistent with CBI rules on conflicts and incentives. You should review all remuneration arrangements at least annually and share the outcome of that review with us on request.
Fair Value Review	Our product governance process requires a full review of all products at least annually to determine if the product offers fair value to the end customer. These reviews consider the target market, distribution strategy, remuneration, marketing, product information, product performance, product design and feedback from distributors and customers. We also monitor conversion rates, renewal retention, cancellations, loss ratios, claims and complaints as part of this review process. We are satisfied that the product offers fair value to its intended Target Market subject to distributors • not charging customers additional amounts over and above the gross premium plus underwriting fees quoted by us without first determining that they do not have a detrimental effect on the value of the product. • Ensuring that no duplicate cover exists or is caused by an add-on where that cover is already provided by the policy
Customers for whom the product is not expected to provide fair value	This product would not be expected to provide fair value to policyholders/risks that fall outside the Target Market.
